We enjoyed this interesting journey! Our team consist of Mihaela, Iulia, Vadim, Dina and Denis.

So, from the beginning we were waiting very fast and dangerous river, but it was quit silent. Thats' why we admire wild nature!

This was our first place of sitting. Every day we changed the place.
And, in the morning cows waked up all the group.

The morning begun like so... With many food and drinks.

While the journey we took bronze and enjoyed the adventure.

We had also fried sausages in the evening!

The day when we need to prepare our national food had arrived!!!
We prepared Moldavian soup- zama and găluște.

We also visited village, that was near the place we stayed. Our team got "kabaciki" and we also visited historical places of the village.

Moldova love Lvov and Carpathia
